

DIAMOND WATTLE

Advanced Straw Wattle

A low cost, lightweight BMP option, now with Advanced Netting Options.

Our weed-free wattles provide perimeter protection along contours or at the base of slopes, inlets, and roadways to reduce soil erosion, runoff and retain sediment.

As an advanced alternative to traditional, common Straw Wattles, MKB offers our DiamondWattle™. It is everything you like about a wattle (economical, lightweight, easy to handle), with none of the problems! The net won't tear, significantly outlasts traditional wattle netting, and keeps rodents out of your warehouse.

MKB also offers a 100% biodegradable DiamondWattle, made with all natural fiber netting.

Benefits:

- Made with the same Advanced, premium netting as Compost Filter Sock
- Won't tear & outlasts traditional wattle netting
- Reduces dust & keeps rodents out
- 9", 12", 20" diameters
- 100% Biodegradable netting available

DIAMOND WATTLE

Advanced Straw Wattle

DiamondWattle Product Specs:

Netting Material Type	Diamond Sock® Wattle Netting Multi-Filament Polypropylene (MFPP)
Netting Degradation	Photodegradable
Netting Diameters	9", 12", 20"
Netting Opening Size	1/8"
Netting Color	Black
Fill Type	Weed Free Agricultural Straw
Functional Longevity ¹	1-2 years
Staking Recommendation	Every 5-ft (stakes not included)

¹Functional longevity ranges are estimates only. Site specific environmental conditions may result in significantly shorter or longer time periods.
