

Secure your next erosion control project, naturally.

GreenStakes are natural, biobased, compostable landscaping staples used for erosion control, landscaping, gardening, golf course maintenance & more.

Tough & Reliable: Designed to penetrate even the hardest ground, while being shatter resistant. According to independent testing, 4" GreenStakes have 45% more holding power than 6" metal stakes.

Better for the Environment: Made of natural, plant based materials, GreenStake complies with ASTM D6400 compostable standard.

Safe & Efficient: GreenStakes are safer than metal staples for both people and machines. Use them and forget about them – they'll keep gripping before completely disappearing, greatly reducing labor costs.

Multiuse Staples:

The 4-inch or 6-inch GreenStake staples can be used for a variety of applications, including pinning erosion control blankets, turf sod, seeded blankets, and netting.

Available in bulk boxes or retail bags.

GREENSTAKE STAPLES		
PART NUMBER	Size	QTY
ETST-4BIO	4"	500/box
GS410	4"	10/bag
GS425	4"	25/bag
ETST-6BIO	6"	500/box
GS610	6"	10/bag
GS625	6"	25/bag
